

# T 200

# WHEEL SAW

- Designed for mounting on skid steer loaders.
- **For cutting and narrow trenching.**
- Specially recommended for **trenching for fiber optic cable installation** (mini or micro trenching).
- Designed for **fixed-section trenching on hard and compact surfaces:** asphalt and cement.
- Full wheel protection at any working depth ensures **maximum safety of persons and property.**

**PERFORMER**

**SIMEX  
PATENT**

**Performer, the performance optimizer.**

Tells operator how to work with Simex attachments to maximize power and performance (optional).

TECHNICAL SPECIFICATIONS	T 200	
Working width	25 - 30 - 40 - 50	mm
Depth	200	mm
Side shift	mechanical	
Operating weight with standard wheel (1)	270	kg
Required oil flow	40 - 70	l/min
Required oil pressure (2)	240 - 160	BAR

(1) User is responsible for ensuring that the equipment meets the prime mover's specifications and weight requirements.

(2) Pressure must be inversely proportional to the flow rate available and vice versa.
